

Meeting Details:

Project: RoboDog – GPS + Local Navigation

Date & Time: Saturday, 2 May, 18:00 – 19:45

Location: Mineroom

Attendees:

- Edwin Alejandro Gutierrez Rodriguez
- Joel Sebastian Montenegro Gonzalez
- Abdullah Khaled Ali El-Hiari

Key Outcomes:

- Mobile phone GPS integration was successfully tested.
- Data collection and evaluation process initiated.
- GPS module testing was postponed due to missing components (female-to-female wires).

Next Tasks:

- Purchase required wiring (Female–Female connectors)
- Complete GPS module testing (scheduled for Tuesday)
- Finalize GPS solution selection
